

## Nautitech® 7.2V Battery Pack

WITH ENHANCED  
OPERATIONAL FUNCTIONALITY  
AND RESILIENCE

Certified under IECEx ITA 14.0009X

Part #: ME5070-2-99-151

### FEATURES

- ✓ Integrated Real Time Clock (RTC) for time stamped event data logging to assist with automation and asset monitoring
- ✓ Fully backwards compatible with previous revisions
- ✓ Designed to supply up to 6 Amps to components in the FLP enclosures, while also charging the battery
- ✓ Integrated input power transient protection device for harsh electrical environments
- ✓ High 90V Um rating on input power terminals
- ✓ Optional chassis earthing through internal galvanic isolation
- ✓ Electronically protected heater element connection enhances sensor accuracy
- ✓ Clearly differentiated IS (Green) and non-IS (Black) functional interconnects
- ✓ Operating conditions -20°C to +60°C
- ✓ Simplified, easy wiring
