

CUBEx IS lights can be triggered to turn yellow or red, creating a soft barrier to signal NO-Go zones during BSL advance

- The first controllable IS lights on the Australian market
- Compatible with Nautitech IS PSM and LIM
- Available in multiple colours, intensity and beam angles
- 3 x Independent circuits
- High efficiency, long life

- Cool running
- IP 67 connector
- Rated from 10.5-20V DC
- $-20^{\circ}\text{C} < T_a < +60^{\circ}\text{C}$
- Intrinsically Safe - no flameproof enclosures required
